enterade® Advanced Oncology Formula is a sugar-free medical food developed by oncologists and gastroenterologists that provides select, plant-based amino acids and electrolytes to reduce the GI side effects of chemotherapy and radiation.

enterade® Advanced Oncology Formula promotes overall stomach and gut health, improving how you feel.

Side effects enterade® Advanced Oncology Formula can manage:

- 91% saw improvement in nausea
- 74% saw improvement in diarrhea
- 88% saw improvement in dehydration
- 77% saw improvement in weight loss

Healthy Gut Barrier
- Barrier Closed
During Radiation
- Barrier Open
Radiation + enterade®
- Barrier Closed

Rebuilds
Chemotherapy and radiation damage the gut villi, which play a vital role in nutrient absorption.
enterade® Advanced Oncology Formula rebuilds the villi to promote better nutrient absorption for overall improved health.

Protects
Cancer treatments damage the gut, weakening the barrier function and creating gaps that allow toxins and bacteria to enter the bloodstream.
enterade® Advanced Oncology Formula closes the barrier to protect your already compromised system from increased exposure to harmful toxins.

Hydrates
Treatments cause severe dehydration.
enterade® Advanced Oncology Formula is specially formulated to rehydrate the body faster than leading sports drinks, oral rehydration solutions, and even water.
**REIMBURSEMENT**

enterade® Advanced Oncology Formula may be eligible for reimbursement through your insurance provider.

To submit for reimbursement, obtain a prescription from your physician that reads:

**enterade 2x/day x 30 days plus 2 refills**

Be sure the prescription includes diagnosis/reimbursement codes (ICD 10).

If required by your insurance, also include a completed medical necessity form from your physician.
